Professional Summary

Backend-focused Software Engineering undergraduate with strong experience in Spring Boot, RESTful API development, JWT/OAuth2 authentication, MySQL database design, and secure system architecture. Experienced in building scalable backend services, integrating payment gateways, implementing email automation, and handling data scraping. Passionate about clean architecture and secure backend engineering.

Professional Experience

Freelance - Flower Bouquet E-Commerce Website Self-Employed

2025 November – Present

Galle, Sri Lanka

- Built a full-stack e-commerce application using React, Node.js, Express, and MongoDB
- Implemented JWT-based authentication and role-based authorization for secure user access
- Integrated Cloudinary image upload system for efficient product management
- Developed secure payment processing and order management workflows
- Designed dynamic inventory system with real-time updates and deployed on Vercel

Student Committee Vice President IJSE Institute of Software Engineering

Dec 2025 - Present

Galle, Sri Lanka

- Led the planning, coordination, and execution of student-led and community service initiatives, including organizing a disaster relief donation campaign in response to Cyclone Ditwah and flooding, in collaboration with the St. John Ambulance Association (Galle District).
- Coordinated volunteers, logistics, and stakeholder communication to support emergency response, humanitarian aid, and community relief operations.
- Managed social media content and campaigns to improve event promotion and community engagement

Key Projects

Betting Platform – Spring Boot Backen

Spring Boot, REST API ,JWT , MySQL , Jsoup | Sep 2025 – Oct 2025

- Designed and developed secure RESTful APIs using Spring Boot with JWT and OAuth2 authentication, ensuring stateless and scalable backend architecture.

- Built and optimized normalized MySQL database schemas, integrated PayHere payment gateway, and implemented automated email notifications using SMTP.
- Integrated external data scraping using Jsoup to enhance real-time data processing and system functionality.

Flower Bouquet E-Commerce Platform

MERN, REST API ,JWT , Cloudinary , Vercel | Nov 2025 – Present

- Built a responsive React-based frontend with modern UI practices and deployed it on Vercel for production use.
- Developed secure RESTful APIs using Node.js and Express with JWT-based authentication and role-based authorization.
- Designed MongoDB schemas for order and inventory management, integrated secure payment systems, and implemented Cloudinary-based image uploading for product listings.

Patient Risk Analysis System

Python, Pandas, NumPy, Matplotlib, Seaborn | Jan 2026 - Feb 2026

- Conducted Exploratory Data Analysis (EDA) on 100k+ medical records to evaluate 30-day hospital readmission risks, successfully navigating severe class imbalance targets.
- Built an automated web-scraping pipeline to clean and format unstructured clinical codes into structured datasets for predictive analysis.
- Developed comprehensive data visualizations to present multicollinearity checks, operational inefficiencies, and medication risks to non-technical stakeholders.

Core Skills

Backend

Java (Spring Boot),Python,Node.js

Database & Cloud

MySQL , MongoDB , Firebase , Vercel ,

Tools & Workflow

Git & GitHub , Postman , Agile/Scrum

Frontend & UI/UX

React.js , React Native , TypeScript , Tailwind CSS ,Native Wind ,Figma

Education

Undergraduate in Computer Science

IJSE Institute of Software Engineering

Feb 2024 - Present

Focused on software engineering fundamentals and practical product delivery.

Diploma in English Language & Literature

Aquinas College of Higher Studies

July 2023 - October 2023

English Literature , Grammer

DegreeGCE O/L & A/L (Physical Sciences)

St. Aloysius' College

May 2014 - January 2023

Completed Ordinary Level with 9 As & Advanced Level in Physical Science stream with B,C,S

Professional Certifications

GENESYS Hackathon

IJSE Institute of Software Engineering | 2024

Introduction to Python

DataCamp | Mar 2025
